# Virtual Lunch & Learn

Session 1: 11:00-11:45
February 2021

Opening

HOW DO YOU FEEL, ON A SCALE OF TOM BRADY...

One tech tool that I've tried during remote learning is…

THINK-INK
- In the chat or on a sheet of notebook paper:
  - In a sentence or two, explain some successes and challenges of the resource

SHARE
- Raise your hand or type in the chat if you'd like to share
- We will also read a few out loud

Agenda

- ❏ Welcome & Opening

- ❏ Flipgrid & SAMR

- ❏ Getting Started

  - ❏ Posting an Intro Video

- ❏ Setting up your own Grid

- ❏ Exit Ticket

Norms

❏ Be fully present and engaged

❏ Commit to listening and learning from each other

❏ Be positive and open minded

Learning Goals

★ I will grow my knowledge and understanding of Flipgrid

★ I will enhance virtual collaboration with the use of Flipgrid

★ I will create my own Flipgrid group for my class

★ I will upload my own Flipgrid introduction video

Tech Tool

Flipgrid

Kimberly E   Oct 10
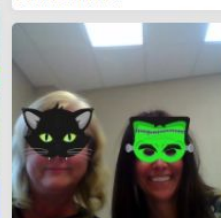

Rod F   Oct 9
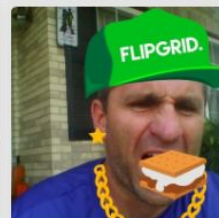

Adam G   Oct 9
Dream Team Member

KD T   Oct 9

EPIC!

FLIPGRID.

Flipgrid & SAMR

This PD is grounded in SAMR in a variety ways. SAMR is like a pedagogy that allows you to move up and down. According to Puentedura (2006), SAMR is a model that looks at technology integration into education starting at basic substitution to redefining experiences for learners.

Flipgrid redefines learning experiences for students because students are able to virtually collaborate with one another. Students can creatively post videos of their learning and comment on each others videos. There are a variety of tasks in which Flipgrid can redefine learning including posting videos of themselves, teaching math concepts, acting out a vocab word, reading their writing, and more. Students are also able to collaborate with other students by commenting on each other's videos. For example, I have one "group" for the entire fourth grade, which enhances collaboration among all students instead of individual homerooms.

Add your Intro Video
